## Kids, Vaayu & Corona: Who wins the fights? (A comic series for COVID-19 awareness)

There is growing concern and perceived threat about the Coronavirus among common citizens. The population of all ages are making use of available media such as newspapers, social media, and television to make themselves aware. From adults to children, most of the discussion these days are centering around the Coronavirus. But for children, especially those below the age of 12 years, Coronavirus has become a cause of concern as they are not able to comprehend the talks and getting worried. The parents should talk to them and resolve their queries so that they do not panic.

Sometimes parents might be busy, and they might not be able to resolve their queries. Considering this PGIMER- Chandigarh, India, and Panjab University-Chandigarh, India created a comic to make children aware about the threat of Coronavirus and how to remain safe through simple precautionary steps. This comic is created to learn, along with fun, and motivate children to be a hero of prevention by defeating Corona.

Vaayu is a global citizen who lives in the foothills of Himalayas, India. He is a superhero, who work for the better public health and environment. He has been called to fight against global threat of Coronavirus and to protect children from sudden panic and fear.

Technically Vetted by:

Oh, kids seems to be panic.  
I must visit them.

A superhero with black hair, wearing a white long-sleeved shirt, a blue cape, and brown pants, is flying through the air. He is looking down towards the ground. The background shows a green tree on the left and a city skyline in the distance under a light blue sky.

What happened  
kids?

The superhero is standing on a green lawn, looking down at three children. The children, a boy in a red shirt and blue shorts, a girl in a blue shirt and dark skirt, and another boy in a grey shirt and white pants, all look worried. The superhero is holding his blue cape. The background includes a large green tree, a city skyline, and a street lamp.

## Let's Greet Like This

## Also maintaining social distance

Avoid going in crowded places or functions

Oh!!  
That's why our  
school's are closed.

Kids! if not urgent, please  
avoid travel to the place  
where Coronavirus is  
reported.

Thanks Vaayu!  
We will also ask  
our parents to avoid  
travel If possible.

An illustration of a superhero father with a blue cape and white shirt talking to his three children in a park. A large speech bubble from the father contains text about contacting a doctor. A thought bubble from the children shows a doctor saying 'Hello kids!'. A speech bubble from the children says 'Great! these are simple steps to defeat Coronavirus or other germs.'

If you have cough, fever  
or difficulty in breathing, contact a doctor  
immediately and follow the advice  
given by your doctor.

Hello kids!

Great! these are  
simple steps to defeat  
Coronavirus or  
other germs.

Ok kids, now tell me,  
How can you defeat corona virus?

By washing  
hands properly.

By maintaining  
social distance.

1 Meter

By greeting  
traditionally.

Maintain &  
Proper hygiene

If sick, follow  
doctor advice

## Coronavirus FOR CHILDREN OF AGE GROUP 9 TO 12 YEARS

Corona Viruses are a large family of viruses that causes illness ranging from common cold to more severe diseases, such as Middle East Respiratory Syndrome (MERS-CoV) and Severe Acute Respiratory Syndrome (SARS-CoV).

Common signs of infection include respiratory symptoms cold, fever, cough, and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome, kidney failure and even death.
